

DKTK-/CCCC-WORKSHOP

Hot Topics: Methylom- and CyTOF-based Analysis

9th November 2015, 14:00 – 16:30 Uhr

Charité Comprehensive Cancer Center
Conference room, level 3
Invalidenstraße 80 / Virchowweg 23
Charité Campus Mitte

14:00 **Welcome**
Britta Siegmund and Frank Heppner, Charité Universitätsmedizin

Chair: CyTOF-based analysis - Britta Siegmund
Charité Universitätsmedizin, Division of Gastroenterology, Infectiology and Rheumatology

14:10 **“A mass cytometry view on multiple myeloma”**
Leo Hansmann, Charité Universitätsmedizin

14:40 **“CyTOF2 at the BCRT Flow Cytometry Lab”**
Désirée Kunkel, BCRT Flow Cytometry Lab

Chair: Methylom Analysis - Frank Heppner
Charité Universitätsmedizin, Institute of Neuropathology

15:15 **“DNA methylation profiling for the classification of brain tumors”**
David Capper
Ruprecht-Karls Universität Heidelberg, Neuropathology

16:00 **Final discussion and concluding remarks**
