

Cardiology Science Lunch Berlin

a weekly exchange of insights and ideas in cardiovascular medicine

Importance of Mitochondrial Proteins for Myocardial Ischemia/Reperfusion Injury and Protection From It

Prof. Dr. med. Christoph Maack
Klinik für Innere Medizin III,
Universitätsklinikum des Saarlandes, Homburg

Mitochondria are the major source of ATP, but also of reactive oxygen species (ROS) in cardiac myocytes. Since their function is controlled by calcium, deregulated calcium and sodium handling in failing hearts induce oxidative stress and energetic deficit and therefore, are potential targets for novel therapies in heart failure.

Wednesday, 02.03.2016

12:00 – 13:00h

Bibliothek at DHZB

Augustenburger Platz 1, Berlin

Priv. Doz Dr. Dr. med. Frank R. Heinzel
Priv. Doz Dr. med. Florian Blaschke
Klinik für Innere Medizin
m.S. Kardiologie
Charité Universitätsmedizin Berlin
Campus Virchow Klinik

Prof. Dr. med. Philipp Stawowy
Klinik für Innere Medizin
und Kardiologie
Deutsches Herzzentrum Berlin

Prof. Dr. med. Burkert Pieske
Klinik für Innere Medizin
m.S. Kardiologie
Charité Universitätsmedizin Berlin
– Campus Virchow Klinik
und Deutsches Herzzentrum Berlin
Klinik für Innere Medizin –
Kardiologie
