Cardiology Science Lunch Berlin
A Regular Exchange of Insights and Ideas in Cardiovascular Medicine

Data Science and Artificial Intelligence in Cardiovascular Medicine - Data Driven Medicine meets Evidence-Based Medicine
PD Dr. med. Alexander Meyer
DHZB Data Science, German Heart Center (DHZB), Berlin, Germany

Alexander Meyer is Chief Medical Information Officer at the DHZB, group leader at DHZB’s Medical Data Science Department and senior resident in cardiothoracic surgery at the Clinic for Cardiac, Thoracic and Vascular Surgery at the German Heart Center Berlin. Before his career as a physician-scientist, Dr. Meyer worked as a computer scientist and software developer. End 2016, he was selected into the Clinician Scientist Program at the Berlin Institute for Health (BiH) of the Charité, from 2018 to 2020 he was participant of the Digital Health Accelerator program, during which he launched the DHZB spin-off x-cardiac – a digital health company, that provides real-time digital biomarkers for postoperative risk stratification.

Dr. Meyer’s research field comprises medical data science, big data analytics, applied deep learning / machine learning, medical informatics for heart surgery / transcatheter structural heart therapeutics.

Wednesday, 28 October 2020
12:00 – 13:00h
