

Cardiology Science Lunch Berlin

a weekly exchange of insights and ideas in cardiovascular medicine

New Developments in Cardiovascular and Interventional MRI

Prof. Dr. Tobias Schaeffter

Physikalisch-Technische Bundesanstalt

Medical Physics and Metrological Information Technologies

Cardiac MRI is an increasingly popular and powerful imaging technique. Imaging of a beating, twisting heart for quantitative read-outs of cardiac structure and function remains challenging. Prof. Schaeffter has a long-standing experience in developing quantitative approaches in cardiovascular imaging with a focus, but not limited to cardiac MRI. Based on his experience he will introduce and discuss current and future trends in cardiac MRI imaging, not only limited to diagnostic but also interventional procedures.

Wednesday, 10.02.2016

12:00 – 13:00h

Bibliothek at DHZB

Augustenburger Platz 1, Berlin

Prof. Dr. med. Frank R. Heinzel
Priv. Doz Dr. med. Florian Blaschke
Klinik für Innere Medizin
m.S. Kardiologie
Charité Universitätsmedizin Berlin
Campus Virchow Klinik

Prof. Dr. med. Philipp Stawowy
Klinik für Innere Medizin
und Kardiologie
