

Cardiology Science Lunch Berlin

a weekly exchange of insights and ideas in cardiovascular medicine

Baroreceptor Stimulation – Current Role and Future Prospective in Cardiovascular Diseases

Prof. Rolf Wachter

**Clinic for Cardiology and Pneumology
University Medicine Göttingen, Germany**

Nearly 50 years ago, Eugene Braunwald and his wife Nina Starr described baroreceptor stimulation as a therapy for severe angina in the New England Journal of Medicine. Due to new treatment modalities (e. g. coronary stenting, bypass surgery), this therapy was long time forgotten, but has evolved in recent years for treatment of hypertension and, more recently, heart failure. Prof. Wachter will give an overview on the recent evidence from randomised controlled trials, will share own research data and discuss potential future therapeutic targets in cardiovascular diseases.

Wednesday, 01.06.2016

12:00 – 13:00h

Bibliothek at DHZB

Augustenburger Platz 1, Berlin

Prof. Dr. Dr. med. Frank R. Heinzel
Priv. Doz Dr. med. Florian Blaschke
Klinik für Innere Medizin
m.S. Kardiologie
Charité Universitätsmedizin Berlin
Campus Virchow Klinik

Prof. Dr. med. Philipp Stawowy
Klinik für Innere Medizin
und Kardiologie
Deutsches Herzzentrum Berlin

Prof. Dr. med. Burkert Pieske
Klinik für Innere Medizin
m.S. Kardiologie
Charité Universitätsmedizin Berlin
– Campus Virchow Klinik
