Frontispiece: Atrium of CharitéCrossOver (CCO) inaugurated in 2012
2012 was a successful year for the Charité – Universitätsmedizin Berlin, both in medical and financial terms. Together we have achieved much and created new avenues of opportunity. For this we owe a special debt of gratitude to our approximately 13,000 staff members for their exceptional commitment.

The quality and efficiency of the medical and healthcare services provided by the Charité were also outstanding in 2012. The Charité earned first place in “Focus” magazine’s “Germany’s Best Hospital” ranking of 2012. Ensuring the very best medical care for our patients is both a vocation and a calling for our physicians, caregivers and technical staff – day after day and with tireless dedication. The integration of clinical and research activities proved to be fruitful again this year: observations made in clinical settings inspired intelligent research, while innovative research findings were quickly transformed into new therapeutic concepts. First and foremost, all this was done for the benefit of our patients. The Charité is committed to actively advancing world-class medicine: our University Clinic unit with its around 7,000 students is one of the largest medical schools of its kind. Inaugurated in 2012 on the historic Berlin-Mitte campus, our new teaching and research facility CharitéCrossOver unites all basic disciplines under one roof. The Charité has been exemplary in seeking to purposefully link academic, research and teaching activities with hands-on training programs, an approach that now serves as a model for many other university clinics around the country.

Despite difficult framework conditions, the Charité achieved a financial surplus of 5.2 million euros for the financial year 2012, thereby confirming the organization’s ongoing consolidation strategies. While the Charité still faced a 57 million euro deficit in 2008, it has been profitable since 2011 and continues to improve its science and clinical performance.

Such positive results are a further incentive for us to strengthen and expand these successes. Over the years to come we will continue to work together to promote Berlin as an excellent location for research, and we will support the healthcare industry in the Berlin-Brandenburg region in its mission to achieve world-class status.

---

**Foreword**

Prof. Dr. Karl Max Einhäupl  
Chairman of the Board

Prof. Dr. Annette Grüters-Kieslich  
Dean

Matthias Scheller  
Hospital Director

Prof. Dr. Ulrich Frei  
Medical Director
First educational center inaugurated:
Innovative concept for realistic learning conditions

Europe’s largest hospital laboratory taking shape:
Cornerstone ceremony for the headquarters of the laboratory center Labor Berlin

The smartest night of the year:
Kick-off event for the 12th “Long Night of Sciences”

The Neonatology ward: Treatment for 2,000 sick newborn infants,
200 of them prematurely born and weighing under 1,500 g (3.3 lbs.)

“Germany’s best hospital”:
Charité wins first place in “Focus” ranking

Right on time for the new term:
The ultramodern teaching and research facility CharitéCrossOver (CCO) opens its doors
12 years Teddy bear clinic: Young physicians treat sick cuddly toys with assistance from the Federal Minister of Health, Daniel Bahr.

Before and after: How the facade looks today, and the winning design submitted by Hamburg architects.

Excellence Initiative grant confirms excellence: Charité continues to strengthen its top position in medical research.

Charité and MDC combine expertise: Berlin Institute for Health Research launched.

Presenting their best wishes to the Charité: High-ranking guests from the spheres of science, politics, business and industry applaud CCO opening.

Christmas music for staff and patients: Charité brass quartet playing festive songs Fest.
The Charité – Stronger than ever

2012 was indeed a successful and eventful year for Charité – Universitätsmedizin Berlin. Our University Hospital was able to further improve its position as one of Germany’s highest performing and renowned medical centers, while continuing to demonstrate world-class excellence in numerous aspects of health and medical care services, research, professional training and networking. For the second time, Charité has again achieved a positive annual result, translating into a profit of 5.2 million euros for 2012. The year was also characterized by our winning of the top hospital ranking awarded by “Focus” magazine, in addition to successes in the national Excellence Initiative. Examples of successful endeavors at Charité last year include good progress in construction projects, newly inaugurated facilities, and numerous public and professional events.

Focus Magazine Ranking
Charité provides first-rate medical care to its patients. This fact was underscored yet again by “Focus” magazine’s ranking of German medical facilities: Charité won first place among approximately 1,500 hospitals around the country, well ahead of the second-place contender. The survey assessed responses from roughly 18,000 physicians on the basis of their hospital recommendations and hospital quality assessment reports. The study also compared the technical equipment at the various facilities, available treatment options, as well as the safety and satisfaction of patients and staff.

The Excellence Initiative Awards Support for Three Projects
The results of the second phase of the “Excellence Initiative of the federal and state governments” published in June were indeed very positive for Charité as a whole. In no less than three categories, the Charité will now be able to expand several top medical and university research projects: the ongoing excellence cluster NeuroCure, in addition to financial support for two graduate schools until 2017, i.e. the Berlin School of Integrative Oncology and Berlin-Brandenburg School for Regenerative Therapies. This success was made possible through innovative ideas, hard work, and outstanding cooperation between the many Charité scholars and scientists, and their counterparts in the various universities and extramural research facilities.

CharitéCrossOver Officially Inaugurated
The inauguration of the new teaching and research building of the Faculty of Medicine was celebrated in October in the presence of around 600 representatives from the spheres of science, business and industry, culture, as well as from the federal and state governments. The modern building located on the historic Charité Mitte Campus now brings together under one roof the excellence cluster NeuroCure, various educational facilities, and the basic academic subjects of the Faculty of Medicine. Previously, the Institutes of Neurophysiology, Medical Physics, Vegetative Physiology, Biochemistry and Molecular Biology, Biochemistry, Cell Biology and Neurobiology, and Physiology were scattered all over Berlin in 13 different locations. We have achieved a unique campus atmosphere by uniting these institutes in a single facility, thereby purposefully promoting scientific exchange between many of the smartest minds from academia, research and teaching. These clearly improved framework conditions will advance the Charité’s research initiatives and expand innovative teaching approaches.

Green Light for the Berlin Institute of Health
After receiving approval from the federal and Berlin governments, the Berlin Institute of Health (BIH) project can now be officially initiated. This ambitious merger of the Charité and the Max Delbrück Center for Molecular Medicine (MDC) aims to combine the strengths of both partners in the areas of basic and patient-oriented research, as well as to attract top scientists and promising young physicians from around the world to this internationally prominent center of medical research excellence.
Another Year of Excellence in Medicine

A Solid Foundation for a Secure Future

Further major steps forward were taken in 2012 with respect to planned construction and renovation projects. Four of these numerous projects should be mentioned here:

The most important collaborative project between Charité and Vivantes is now taking shape. In February, the cornerstone was laid on the Virchow Hospital Campus for the Labor Berlin - Charité Vivantes GmbH building. This major hospital laboratory center - the largest of its kind in Europe - will provide high-performance diagnostics for more than 10,000 hospital beds in Berlin and surrounding areas, yet another impressive success story.

The results of the architectural competition to redesign the main hospital tower on Luisenstrasse on the Charité Mitte Campus were quite impressive. The jury selected the design proposed by Schweger Architects in Hamburg. The 82-meter-high hospital building features a white facade with brick-red base. This distinct Charité structure will continue to dominate Berlin’s skyline and serve as a model for successful urban renewal schemes. All 18 submitted designs were displayed in a public exhibition.

The demolition of the health care center on the Mitte campus built in the 1980s has now made way for the new Charité Campus Hospital, which was completed in the summer of 2013. Most of the clinics in the hospital tower will move to this facility until the renovation work is completed. The Campus Hospital provides space for 339 patients.

Hospital Block I on the Benjamin Franklin Campus is a modern and user-friendly medical center: in late 2012 the building’s water and sewer lines were refurbished and handicapped-accessible baths and additional sanitary facilities were installed. 3,320 linear meters of pipelines were replaced.

National Scholarships for 68 Students

Last year again, the coveted national scholarships (Deutschlandstipendium) were awarded to select students in the fields of human medicine, dentistry, molecular medicine and health science education. The grantees receive support in the amount of 500 euros per month for at least two semesters. This scholarship program is funded equally by the federal government and by private sponsors. In 2012, the Charité attracted the maximum amount of grant funding and was able to award scholarships to a total of 68 students.

“Long Night of Sciences” Draws Large Crowds

In June, for the first time Charité organized the opening ceremony for the “Long Night of Sciences” on its historic Mitte campus. More than 184,000 visitors saw this ‘smartest night of the year’ as an opportunity for a behind-the-scenes look at Berlin’s 73 academic and science institutions. With more than 6,000 guests that night, the Charité was one of the most visited venues. All three Charité campuses presented colorful programs including information booths, guided tours to laboratories and clinical facilities, as well as lectures for young and old. The Charité has now successfully participated in this popular event format for the twelfth year in a row.
Profitability

Three hundred years after its founding, Charité – Universitätsmedizin Berlin now comprises more than 100 medical facilities and institutes distributed across four separate campuses: Benjamin Franklin Campus, Berlin Buch Campus, Charité Mitte Campus and Virchow Hospital Campus. A total of approximately 13,200 staff members are employed in the areas of medical care, research and academics, service, administration and external funding. This makes the Charité one of the largest employers in the German capital.

With an overall turnover exceeding 1.4 billion euros and more than 140,000 inpatient and 615,000 outpatient cases, the Charité achieved revenues amounting to 801.4 million euros for the 2012 reporting period. This breaks down to 713.4 million euros of revenues from inpatient care, 55.2 million euros from outpatient care services, and charges for elective procedures and fees for medical facilities used by private doctors in the overall amount of 32.7 million euros. The Charité received grants and allocations from the State of Berlin in the amount of 191.7 million euros. Other operating income amounted to 345.8 million euros.

Staffing costs were the largest single expenditure item amounting to 741.4 million euros in 2012 and corresponding to an increase of 36.1 million euros when compared with the previous year. This item was offset by 26.2 million euros in revenues generated by staff provided by Charité CFM Facility Management GmbH (CFM). The cost of materials rose by 19.7 million euros in 2012 to a total of 370.4 million euros. Other operating expenses amounted to 184.4 million euros, including 66.0 million euros for maintenance needs.

Net earnings amounted to 5.2 million euros for the overall 2012 reporting period, despite 118 fewer beds in this fiscal year. As a result, the Charité has again surpassed its ambitious economic objectives, thereby ensuring a sustainable fiscal consolidation of the losses incurred in the years prior to 2011. The annual net profit will be used to strengthen liquidity. This improvement in Charité’s economic underpinning was made possible by the hard work of our staff in furthering Charité’s economic reform process, which in turn facilitated the implementation of an extensive portfolio of improvements in structural efficiency. Based on this successful package of measures, we were able to balance and even overcompensate for these losses, despite a further increase in expenditures due to tariff agreements and inflationary effects occurring during the financial year.

Investments

Over the course of the 2012 financial year the Charité invested a total of approximately 81.3 million euros in both tangible and intangible assets. A major portion of these investments was financed by the State of Berlin in the form of subsidies for health services and research and teaching; the regular investment subsidies of the State of Berlin amounted to 33.7 million euros.

Human Resources

The Charité saw a slight increase in the number of its active full-time staff during the 2012 financial year. On average, 9,720 active full-time staff were employed during 2012. Six full-time staff were added to the workforce in 2012. Moreover, an average of 1,617 full-time staff were financed from external funding sources.
Excellent financial results: In 2012, Charité achieved an annual result of **5.2 million euros**, despite 118 fewer beds.

CC7 CharitéCenter for Anesthesiology, Operating-Room Management a. Intensive Care Medicine
Medical Director: Prof. Dr. Claudia Spies  +49 30 450 531 012  claudia.spies@charite.de
Managing Director: Dr. Matthes Seeling  +49 30 450 651 121  matthas.seeling@charite.de
Nursing Director: Evelyn Starkiewicz  +49 30 450 577 048  evelyn.starkiewicz@charite.de

Department of Anesthesiology and Operative Intensive Care Medicine  CCM/CVK: Prof. Dr. Claudia Spies
Department of Anesthesiology and Operative Intensive Care Medicine  CBF: Prof. Dr. Christoph Stein
Operating Room Management (with OP and Anaesthesia Functional Service)  CBF/CCM/CVK: Prof. Dr. Claudia Spies/Prof. Dr. Christoph Stein

CC8 CharitéCenter for Surgery
Medical Director: Prof. Dr. Peter Neuhaus  +49 30 450 552 001  peter.neuhaus@charite.de
Managing Director: Leonore Boscher  +49 30 450 522 001  leonore.boscher@charite.de
Nursing Director: Annett Leifert  +49 30 450 552 524  annett.leifert@charite.de

Department of General, Visceral, Vascular and Thoracic Surgery  | CCM: Prof. Dr. Joachim M. Müller
Department of General, Visceral and Transplantation Surgery  | CVK: Prof. Dr. Peter Neuhaus
Department of General, Vascular and Thoracic Surgery  | CBF: Prof. Dr. Martin E. Kreis
Department of Urology: Prof. Dr. Kurt Miller

CC9 CharitéCenter for Traumatology and Reconstructive Surgery
Medical Director: Prof. Dr. Norbert Haas  +49 30 450 552 012  norbert.haas@charite.de
Managing Director: Dipl.-Kfm. Gerald Linczak  +49 30 450 552 728  gerald.linczak@charite.de
Nursing Director: Stefanie Bieberstein  +49 30 450 577 051  stefanie.bieberstein@charite.de

Department of Traumatology and Reconstructive Surgery including Department of Orthopedic Surgery  | CVK/CCM: Prof. Dr. Norbert Haas
Julius Wolff Institut for Biomechanics and Musculoskeletal Regeneration: Prof. Dr.-Ing. Georg Duda
Department of Traumatology and Reconstructive Surgery  | CBF: Prof. Dr. Wolfgang Ertel
Department of Oral and Maxillofacial Surgery  | CBF/CVK: Prof. Dr. Bodo Hofmeister

CC10 Charité Comprehensive Cancer Center
Medical Director: Prof. Dr. Ulrich Keilholz (acting)  +49 30 450 513 501  ulrich.keilholz@charite.de
Managing Director: Dr. Regina Jünger  +49 30 450 540 011  regina.juenger@charite.de
Nursing Director: Andrea Schmidt-Rumposch  +49 30 450 677 026  andrea.schmidt-rumposch@charite.de

Charité Comprehensive Cancer Center: Prof. Dr. Ulrich Keilholz (acting)

CC11 CharitéCenter for Cardiovascular Diseases
Medical Director: Prof. Dr. Gert Baumann  +49 30 450 553 022  gert.baumann@charite.de
Managing Director: Dipl.-Kfm. Gerald Linczak  +49 30 450 552 728  gerald.linczak@charite.de
Nursing Director: Stefanie Bieberstein  +49 30 450 577 051  stefanie.bieberstein@charite.de

Department of Cardiology and Pulmonology (including Angiology)  | CBF: Prof. Dr. Heinz-Peter Schultheiß
Department of Cardiovascular Surgery: Prof. Dr. Wolfgang Konertz
Medical Department, Division of Cardiology and Angiology  | CCM: Prof. Dr. Gert Baumann
Medical Department, Division of Cardiology  | CVK: Prof. Dr. Wilhelm Haverkamp (acting)

CC12 CharitéCenter for Internal Medicine and Dermatology
Medical Director: Prof. Dr. Gerd-Rüdiger Burmester  +49 30 450 513 061  gerd.burmester@charite.de
Managing Director: Juliane Maryam Salehin  +49 30 450 552 201  juliane.salehin@charite.de
Nursing Director: Andrea Schmidt-Rumposch  +49 30 450 677 026  andrea.schmidt-rumposch@charite.de

Medical Department, Division of Rheumatology and Clinical Immunology (including Physical Medicine CBF/CCM): Prof. Dr. Gerd-Rüdiger Burmester
Medical Department, Division of Infectiology and Pneumonology (including Pneumonological Oncology): Prof. Dr. Norbert Suttorp
Medical Outpatient: Prof. Dr. Jürgen Scholze
Institute of Medical Immunology: Prof. Dr. Hans-Dieter Volk
Medical Department, Division of Psychosomatic Medicine: Prof. Dr. Burghard Klapp/Dr. Mathias Rose (acting)

CC13 CharitéCenter for Internal Medicine with Gastroenterology and Nephrology
Medical Director: Prof. Dr. Bertram Wiedenmann  +49 30 450 553 022  bertram.wiedenmann@charite.de
Managing Director: Dr. Werner Wyrwich  +49 30 450 513 181  werner.wyrwich@charite.de
Nursing Director: Dagmar Hildebrand  +49 30 450 577 368  dagmar.hildebrand@charite.de

Specialty network Nephrology: Medical Department, Division of Nephrology and Internal Intensive Care Medicine  | CVK: Prof. Dr. R. Schindler/Prof. Dr. A. Jörres (acting)
Medical Department, Division of Nephrology  | CCM: Prof. Dr. Hans-Heinrich Neumayer
Department of Nephrology: Prof. Dr. Walter Zidek
Specialty network of Gastroenterology, Endocrinology and Metabolic Diseases
Medical Department, Division of Hepatology and Gastroenterology | CVK (including Metabolic Diseases)
Prof. Dr. Bertram Wiedenmann
Department of Gastroenterology, Infectiology and Rheumatology CBF (including workspace nutrition medicine)
Prof. Dr. Britta Siegmund (acting)
Department of Endocrinology and Metabolic Diseases
Prof. Dr. Joachim Spranger
Institute of Clinical Physiology
Prof. Dr. Michael Fromm
Division of Lipid Metabolism
Prof. Dr. Elisabeth Steinhagen-Thiessen
Emergency Department | CBF
Prof. Dr. Rajan Somasundaram
Emergency Departments | CVK/CCM
Prof. Dr. Martin Möckel

CC14 Charité Center for Tumor Medicine
Medical Director
Prof. Dr. Bernd Dörken +49 30 450 553 111 bernd.doerken@charite.de
Managing Director
Dr. Felix Mehrhof +49 30 450 513 181 felix.mehrhof@charite.de
Nursing Director
Judith Heepe +49 30 450 577 368 judith.heepe@charite.de

Department of Hematology, Oncology | CBF
Prof. Dr. Antonio Pezzutto
Department of Hematology, Oncology and Tumor Immunology | CVK
Prof. Dr. Bernd Dörken
Department of Hematology, Oncology and Tumor Immunology | CCM
Prof. Dr. Hanno Riess
Department of Radiation Oncology and Radiotherapy | CCM/CVK
Prof. Dr. Volker Budach
Department of Radiation Oncology and Radiotherapy | CBF
Dr. Lutz Moser
Institute of Immunology
Prof. Dr. Peter Vajkoczy
Institute of Transfusion Medicine
Prof. Dr. Abdulgabar Salama (acting)

CC15 Charité Center for Neurology, Neurosurgery and Psychiatry
Medical Director
Prof. Dr. Matthias Endres +49 30 450 560 102 matthias.endres@charite.de
Managing Director
PD Dr. Uwe Reuter +49 30 450 560 27 4  uwe.reuter@charite.de
Nursing Director
Sinah Bischoff-Everding +49 30 450 677 035 sinah.bischoff-everding@charite.de

Department of Neurology with Chair in Experimental Neurology/BNIC
Prof. Dr. Matthias Endres
Department of Psychiatry and Psychotherapy | CBF
Prof. Dr. Andreas Heinz
Department of Psychiatry and Psychotherapy | CCM
Prof. Dr. Isabella Heuser-Collier
Department of Neuropsychology and Neuropediatrics
Prof. Dr. Peter Vajkoczy
Institute of Neuropathology
Prof. Dr. Frank Heppner

CC16 Charité Center for Audiology/Phoniatrics, Ophthalmology and Otolaryngology
Medical Director
Prof. Dr. Manfred Gross +49 30 450 555 401 manfred.gross@charite.de
Managing Director
PD Dr. Uwe Reuter +49 30 450 560 274 uwe.reuter@charite.de
Nursing Director
Diane Jetschmann +49 30 450 577 118 diane.jetschmann@charite.de

Department of Ophthalmology
Prof. Dr. Antonia Joussen
Department of Otolaryngology | CCM/CVK
Prof. Dr. Heidi Dize
Department of Audiology and Phoniatrics
Prof. Dr. Manfred Gross
Department of Otolaryngology | CBF
