

50th Anniversary of Blood, Artificial Blood Substitutes and Drug Delivery

In conjunction with

International Symposium on Nano, Transfusion and Transplantation Medicine

within the framework of

Thai-German S&T Cooperation

and

ERASMUS (Germany-Georgia)

6th and 7th September 2018, Charité-Universitätsmedizin Berlin

Charité Campus Mitte: View from the campus to the main building after renovation in 2016

Organizers:

CHARITÉ - UNIVERSITÄTSMEDIZIN BERLIN

Charité-Universitätsmedizin Berlin, Institute of Transfusion Medicine, and ERASMUS-Team Charité, Germany; erasmus.charite.de

Chulalongkorn University, Faculty of Medicine, Bangkok, Thailand
<https://chula.ac.th/en/>

Tbilisi State University, Tbilisi, Georgia;
TSMU - Tbilisi State Medical University

Acknowledgment

Thursday, 6th September 2018: 14-18 o'clock

Lecture Hall Clinic of Dermatology – Charité Campus Mitte		
14:00	Opening	Dean of the Medical Faculty Charité, Berlin, Germany Welcome Ambassador of Thailand in Germany Welcome Ambassador of Georgia in Germany
14:20	Targeting nanomedicine in the vascular system - Plenary Lecture	Prof. Dr. Vladimir Muzykantov, University of Pennsylvania School of Medicine, Philadelphia, USA
15:00	Kidney stone disease: What we have developed for its diagnosis and therapy based on our research experience	Prof. Dr. Chanchai Boonla, Chulalongkorn University, Bangkok, Thailand
15:20	Current Status of Organ Transplantation in Georgia	Prof. Dr. Gia Tomadze, Tbilisi State Medical University, Georgia
15:40	Micro-packaging of bioactive materials: 3D encapsulation versus 2D arrays	Prof. Dr. Gleb Sukhorukov, Queen Mary University of London, London, UK
16:00	Coffee break	
16:20	Multimodal nanocomposite contrast agents for theranostic applications	Prof. Dr. Dmitry Gorin, Saratov State University and Skolkovo Institute of Science and Technology, Moscow, Russia
16:40	Hard inorganic particles, soft polymeric capsules, and elastic RBC as drug delivery carriers – properties and applications	Prof. Dr. Andre Skirtach, University of Gent, Belgium
17:00	Biological fate of Engineered Nanomaterials: tracing aggregation/ degradation and nanomaterial dose in vitro and in vivo	Prof. Dr. Sergio Moya, CIC biomaGUNE, San Sebastian, Spain
17:20	Autophagy as a stress response to Nanoparticles in ovarian cancer cells: role in cell survival and cell death	Prof. Dr. Ciro Isidoro, Università del Piemonte Orientale, Turin, Italy
17:40	Fabrication, characterization and evaluation of hemoglobin nanoparticles as oxygen carriers	Prof. Dr. Lian Zhao, Beijing Institute of Transfusion Medicine Beijing, China
18:30 -21:30 Reception (with invitation) Lecture Hall Ruin-Pathology-Charité; Hörsaalruine-Pathologie, Charité-CCM		

Lecture Hall Ruin-Pathology
Charité-CCM
Hörsaalruine-Pathologie,
Charité-CCM

Friday, 7th September 2018: 9-16 o'clock

Lecture Hall Clinic of Dermatology – Charité Campus Mitte		
8:30	Opening Inhibitory efficacy of <i>Spirogyra</i> spp. algal extracts on herpes simplex virus infection? - Keynote	Prof. Dr. Yingmanee Tragoolpua, Chiang Mai University, Thailand
9:00	Interaction of submicron particles with tumor cells	Saranya Chaiwaree, MSc. Payap University, Chiang Mai, Thailand and Charité-Universitätsmedizin Berlin
9:15	Properties of protein particles of submicron size	Kloypan Chirapat, MSc. University of Phayao, Thailand and Charité-Universitätsmedizin Berlin
9:30	Oxygen generating nanoparticles	Prapan Ausanai, MSc. Naresuan University, Phitsanulok, Thailand and Charité-Universitätsmedizin Berlin
9:45	Cytotoxic effect of Silk cocoon pigment and pupae extract	Jantakee Kanyaluck, Chiang Mai University, Thailand and Charité-Universitätsmedizin Berlin
10:00	Coffee break	
10:15	CD33 Expression on Monocytes is Enhanced by E. coli Stimulation	Suwannasom Nittiya, MSc. University of Phayao, Thailand and Charité-Universitätsmedizin Berlin
10:30	Propolis Nanoparticles – Characterization and Properties	Thammasit Patcharin, MSc. Chiang Mai University, Thailand and Charité-Universitätsmedizin Berlin
10:45	Quantification of Met-Hemoglobin in Nanoparticles by NMR	Waraporn Kaewprayoon, MSc. Payap University, Chiang Mai, Thailand and Charité-Universitätsmedizin Berlin
11:00	Progress in Transplantation: Bioengineering and Organ Regeneration - Keynote	PD Dr. Nathanael Raschzok, Charité - Universitätsmedizin Berlin
11:30	Liver Tumor treatment with microwave ablation before liver transplantation - Keynote	Prof. Dr. Gocha Barbakadze, Tbilisi State Medical University, Georgia
12:00	Comprehensive Care of Hemophilia in Georgia: Solved and unsolved problems	Marina Abashidze, MD; PhD
12:15		Tinatin Kirtava, MD; PhD
12:30	Lunch Break	
14:00	Prognostic Factors and Principles of Treatments in Aggressive Lymphomas	Tea Vatsadze, MD; PhD,
14:15	Corneal and amniotic membrane transplantation in Georgia	Nino Karanadze, MD; PhD
14:30	Assessment of Donor potential of Georgia	Lali Akhmeteli, MD; PhD
14:45	Urinary tract infection in kidney transplant patients: microbial spectrum and antibiogram profile	Tamar Didbaridze, MD; PhD

15:00	Recurrent FSGS after renal transplantation (Case presentation)	Nora Sarishvili, MD
15:15	BK Polyomavirus as post-transplant complication in a patient with no aggressive immunosuppression	Gvantsa Metskhvarishvili, MD; PhD
15:30	Kidney Transplantation: Prevention and Management of Transplant Associated Complications - Cytomegalovirus	Nino Didbaridze, MD; PhD
15:45	Kidney Transplant Registry (Single Center experience from Georgia)	Tamar Kasradze, MD
16:00	German-Georgian Relations in the Medical Field	Nino Abralava, PhD
16:15	End	

Registration:

Full names:

Nationality;

Present position:

Name of Organization:

E-mail address

Please complete the form and send it via e-mail to hans.baeumler@charite.de

There are no conference fees.
